Fitness enthusiasts can get toned and stay fit with the power of the KOREBALL kettlebell, a collapsible and portable workout system offering a simple and effective core based, full-body fat-burning workout. The water filled, leak proof, bladders are weight adjustable while smooth comfort dual handles make KOREBALL training fun and easy.

The patent-pending KOREBALL workout system is a fat burning cardiovascular workout that helps burn fat, build lean muscles and tone the body in just 30 minutes, while also improving flexibility, balance and strength. The KOREBALL kettlebell system offers a dynamic, full-body workout in 30 minutes or less. Please visit: www.KOREBALL.com

The innovative state of the art design of the KOREBALL kettlebell workout system is a hybrid of traditional kettlebell and medicine ball training devices. Standard kettlebells are comprised of a solid metal bell and handle, which can be challenging to use. Medicine ball workouts have a limited range of motion and it is often difficult for users to hold on to the ball for longer than a few minutes at a time. Visit: www.KOREBALL.com

An on-the-go fitness solution for all fitness levels, KOREBALL's unique design offers users the following benefits:

- A fat burning cardiovascular workout
- Helps build lean muscle
- Engages core muscles, providing tone
- Increases body core stability, flexibility and balance
- Improves body coordination and mental focus
- Bladder can be with water or sand
- Weight: Water (11lbs.); sand (20 lbs.); and 3 lbs. empty
- Comfortable dual handles offer a variety in routines
- Collapsible and compact for travel; easy to store away

The KOREBALL is priced at \$59.99 online and comes with two bladders, one handle, eight screws, two caps and a bag for portability. For more information visit: www.KOREBALL.com.
